WORK EXPERIENCE

Business Intelligence Analyst / BI Engineer **Sep 2022 – Oct 2025**
Accor: Fairmont & Raffles (Revenue Team) Toronto, CANADA

- Led end-to-end BI initiatives, converting ambiguous business needs into scalable data models, automated pipelines, and **executive** level **dashboards**.
- Enabled **self-serve analytics** for leadership and cross-functional teams by delivering trusted datasets, governed metrics, and high-impact **Tableau** dashboards.
- Built and optimized analytics pipelines across **Snowflake**, **SQL**, **SAS**, **Tableau**, and **AWS**, emphasizing data quality, performance, and reliability.
- Defined and enforced **data governance** and quality standards, improving consistency and trust in reporting.
- Drove **automation** and **standardization** of reporting, reducing manual workloads and improving decision speed.

Business Data Analyst **Nov 2021 – Aug 2022**
Freelance: Client in sport analytics Paris, FRANCE

- Designed and automated data pipelines using **Python** (web scraping) to collect and refresh large, multi-source datasets.
- Designed dimensional data models and semantic layers to standardize **KPIs** and enable self-serve analytics at **scale**.
- Built **relational data models** and enriched datasets with geospatial features to support advanced analysis.
- Conducted hypothesis-driven analysis and developed interactive Tableau dashboards to surface performance trends and insights.

Business Analyst **Oct. 2019 – Oct. 2021**
Arval BNP Paribas Group (*Headquarters*) Paris, FRANCE

- Automated operational reporting using **VBA**, **Excel**, **SQL**, and **SAS**, significantly improving efficiency and scalability.
- Extracted, modeled, and analyzed data from Oracle databases to support fleet management and strategic decisions.
- Redesigned **business** and **data processes**, improving clarity, scalability, and **cross-team** alignment.
- Delivered **KPI** reporting and insights to stakeholders and leadership; led training sessions to support adoption.

Business Data Analyst **Feb – Aug 2019**
Michelin: R&D Supply Chain (*Headquarters*) Clermont-Ferrand, FRANCE

- Built forecasting tool for global R&D initiatives, translating business requirements into reporting outputs.
- Defined and maintained core business metrics and reporting logic used consistently across executive and operational **dashboards**.
- Developed **Power BI** dashboards to monitor KPIs and support data-driven decisions.
- Led workflow digitalization initiatives using Agile practices and change-management principles.

EDUCATION

Master Degree: Project Management Digital Transformation & Innovation – *University of Clermont Ferrand - 2019*
Bachelor Degree: International Business & Foreign Languages – *University of La Rochelle – 2016*

CERTIFICATIONS AND ACHIEVEMENTS

- Tableau Data analyst **certification**
- **1st** Place Hackathon e-Learning
